

**Segal Institute Promotes Wilson T. Burke to Director of Research Facilities at Hollywood Pavilion and West Broward Outpatient Clinic**

**Miami, Florida. April 11, 2011** — Segal Institute for Clinical Research, a consortium of specialized clinical research sites, announced today the promotion of Wilson T. Burke to Director of our research facilities at Hollywood Pavilion and West Broward Outpatient Clinic.

“Wilson has been an integral part of our continued success and we are thrilled to promote him to this important position,” said Bonnie Segal, Vice President of Segal Institute.

Mr. Burke will be responsible for the overall operations of the research programs at both Hollywood Pavilion and West Broward Outpatient Clinic. The two highly qualified research sites specialize in CNS, Addiction and General Medicine.

Mr. Burke joined the company in 2003 as a co-clinical research coordinator and quickly rose to manager and supervisor level positions within Segal Institute.

Previous to joining the company, Mr. Burke was with South Shore Hospital where he gained extensive experience in hospital administration. Mr. Burke received a Bachelor of Arts in Health Administration from Alameda College.

**Segal Institute for Clinical Research** is a consortium of research sites specializing in psychiatric, neurological, addiction, medical and women's health clinical trials. A 60-plus staff of full-time Principal Investigators, Subinvestigators, coordinators, research assistants and Master's- and Doctorate-level raters conducts clinical trials in outpatient, inpatient, nursing homes, and sleep laboratories. Founded in 1998, Segal Institute for Clinical Research was created as a division of Compass Health Systems, a multi-specialty group practice.
